

# Troy Road Repairs Begin

The City of Troy, in cooperation with the Road Commission for Oakland County (RCOC), is embarking on a \$10.5M road repair plan for 2014.

This plan will address severe pothole damage caused by this year's harsh winter and, generally poor conditions of major County roads in Troy. For information on the 2014 Troy - RCOC Concrete Pavement Repair plan, please see: [www.TroyRoadsRock.com](http://www.TroyRoadsRock.com)

The key funding components of the plan are \$5M from the City's General Fund Balance, approximately \$2.3M from the RCOC, \$1.9M in federal transportation funds and \$1.0M in state road funds secured by Senator John Pappageorge and Representative Martin Howrylak.

The program includes comprehensive concrete pavement replacement work on the following roads:

- Long Lake Road, Rochester to I-75
- John R, Long Lake to Maple Road
- Long Lake, I-75 to Northfield Parkway
- Big Beaver, Adams to Civic Center
- Big Beaver, Rochester to Dequindre
- Crooks, Wattles to Square Lake
- Dequindre, Big Beaver to 14 Mile Road

Work is expected to start on Long Lake Road, between Rochester and I-75 the week of April 21, 2014 (providing weight restrictions are lifted) and last for approximately 2 months. The contractor will be moving to other roads as they complete areas on Long Lake. Construction schedules for those roads will be announced as the work progresses. All work is expected to be complete by November 15, 2014.
